The next generation
Printronix P7000 Cartridge
Series of Line Matrix Printers

the Power
of

PRINTRONIX®

The Printronix P7000 Cartridge Series of Line Matrix Printers transform product innovations into the Power of Plus. Seamless integration into your current workflow will enable you to reap the benefits from the improved reliability, productivity and environmental advantages.

The P7000 Cartridge Series presents unmatched durability, superior print quality from patented technologies and a choice of speeds to meet specific printing requirements. The new cartridge ribbon offers a substantial improvement in quality, productivity and costs. Compared to the previous generation of line matrix spool ribbons, the P7000 Cartridge generates savings of up to 20% of the consumable cost per page. This makes the P7000 Cartridge an economical replacement for Printronix P5000 and P7000 spool printers. Plus, the High Definition P7000 Cartridge models offer a proven plug & print alternative for expensive and unreliable laser printers.

OPEN PEDESTAL

The P7000 Open Pedestal is the dependable work-horse line matrix printer that forms the foundation of the P7000 Cartridge Series. With its small footprint, the P7000 Open Pedestal is compact enough to maneuver in most industrial environments. The P7000 Open Pedestal offers the convenience of either top tear or rear feed and can be easily accessorized with a front tray and two different rear trays. Like all the printers in the P7000 Series, the P7000 is ENERGY STAR® qualified and is ready to plug into your network and start printing from day one.

CABINET

The P7000 Cartridge Cabinet is the quiet, secure and most versatile choice in our mission-critical line matrix printer series. This proven industrial strength printer is perfect for noise sensitive areas where running large, unattended print applications is an important part of your operation. The P7000 Cartridge Cabinet is configured in a sturdy, fully enclosed, sound reduction cabinet and offers several innovative options to handle your company's industrial printing requirements and challenges.

ZERO TEAR

The P7000ZT Zero Tear is the specialized cartridge line matrix choice for customers printing multi-part and serialized documents that require single form tear-off usability. The P7000ZT is designed to eliminate waste of expensive forms, reducing operating costs. Available for smaller spaces where front accessibility and maneuverability is important, P7000ZT Zero Tear pushes pre-printed media through the hammer bank, allowing users to easily collect forms one at a time.

HIGH DEFINITION

The P7000HD provides the print resolution and systems capabilities to be a "plug-and-print" replacement for laser printers. With the ability to leverage Windows-based tools, the P7000HD models can process a limitless array of font styles, sizes and graphics. Take advantage of the reliability, productivity, and low cost per page offered by line matrix printers, while enjoying the benefits of high-definition printing. The P7000HD Cartridge models are offered in Pedestal, Cabinet and Zero Tear configurations.

The P7000 Series: takes line matrix printing to a new level

- + FASTER ACCESS** = Installation of cartridge ribbons is faster and cleaner than spool ribbons, saving time, reducing load errors and requiring less user training.
- + HIGHER PERFORMANCE AND LOWER COST** = The new cartridge ribbon promotes a longer ribbon life, which lowers consumables costs. The new cartridge ribbon is 6 times less expensive than laser toner cartridges.
- + ENERGY STAR® QUALIFIED** = The P7000 power conservation system provides savings on energy costs, reduces wear and tear on the printer and uses 40% less power than laser.

- + LONGER LASTING INK** = Fewer ribbon changes yield more productivity and contribute to a lower cost of ownership.
- + LEADING EDGE RIBBON TECHNOLOGY** = Less IT interventions reduces downtime, with a patented ribbon jam prevention system. The high-density ribbon yields a longer life and a darker print image.
- + EMBEDDED MICROCHIP** = Provides precise, integrated control over ribbon life, print quality and operating costs. Productivity is improved by preventing interruptions of long print runs.
- + NEW CARTRIDGE RIBBON** = With the self contained cartridge, changing ribbons is easier, cleaner and faster when compared to spool and laser printers.

- + ENVIRONMENTAL ADVANTAGES** = Line matrix consumables are inherently greener than serial or laser printer consumables, and are able to print on paper with a higher percentage of recycled content.

The P7000HD Series: The reliability of line matrix PLUS high definition imaging.

- + HIGHER PRINT QUALITY FOR YOUR INDUSTRIAL NEEDS** = Line matrix is the proven mission-critical print technology of choice for any enterprise with challenging and demanding printing requirements. High definition capabilities provides BOTH high quality imaging AND dependable performance. The P7000HD prints TrueType™ fonts, small point sizes, lines, logo and bar codes in 180 x 180 dpi resolution.
- + MORE RUGGED AND RELIABLE THAN LASER** = Line matrix has always out-performed laser printers in reliability, productivity and cost. Line matrix can endure almost any environment: hot, cold, dirty, and areas with constantly changing humidity and temperature. With the addition of high definition printing, the P7000HD Cartridge dramatically improves the image quality of your printing solution without compromise.
- + PLUG & PRINT FOR WINDOWS ENVIRONMENTS** = With high definition, the P7000HD quickly and easily becomes a part of any pre-existing Windows-based printing network. Instantly improve your printing network's productivity with line matrix benefits without the need to custom code any printing application.

INNOVATIONS: add up to substantial gains in productivity and environmental responsibility

The Printronix P7000 Cartridge Series is built to last for years and years, a key ecological benefit over shorter life cycle products such as laser and serial printers. Engineered with features that promote less energy consumption and generate less waste, the P7000 Series is environmentally responsible and provides the right printing solution for a greener world.

Reliable Connectivity, Seamless Installation and Robust Remote Printer Management

- + CONTROL YOUR ENTIRE GLOBAL PRINTING NETWORK FROM ANYWHERE** = Achieve higher efficiency and improve your company's productivity with the power of PrintNet Enterprise™ remote printer management software. PrintNet Enterprise is a valuable time-saving tool for your mission critical operation.
- + PRINTNET ENTERPRISE™** = Total control. Your worldwide print operation is at your fingertips with PrintNet Enterprise. By combining the recommended integrated Ethernet adapter and Java-based software, remote printer management extends your reach from anywhere you have a computer and connectivity.
 - Configure and monitor printers from any desktop computer and any location in the world
 - Designate events and be alerted to printer issues from emails, pager or mobile phone alerts
 - Complete compatibility with any Printronix product when equipped with the optional Ethernet card
- + PLUG AND PRINT** = No down time. Printronix gives you the widest possible range of emulations, configurability and tools at your disposal. Installation requires no host changes and allows for easy data streaming. Do you have custom print job files already set up? No problem, work with the files you have already created.

PrintNet®
-enterprise

the Power of

- + HIGH REAR TRAY** = This tray works well for printers that are placed against a wall and output is limited to short runs. It also enables easy access from the front of the printer.

- + LOW REAR TRAY** = This output tray is ideal for larger print runs. The adjustable back bar keeps the paper aligned and neat.
- + FRONT TRAY** = This tray raises the paper off the floor and allows for easy mobility of paper and printer.

- + EXTENDED FORMS SUPPORT** = The P7000 Cabinet can be equipped with extended doors to accommodate larger forms. A single extended door will support a form up to 14" and two doors will allow up to 17".

- + POWER STACKER** = Toughest forms can be printed and neatly stacked without interruption. An essential option for full box printing.

- + FRONT PAPER ACCESS** = Load forms and retrieve printed output from the front of the P7000 Cartridge Cabinet. This option allows you to better utilize office space by placing the printer against a wall.

- + ACOUSTIC SHROUD** = Reduce noise on the P7000 Cartridge Pedestal with this easy to install option. By reducing the sound emanating from the paper exit, the noise level can be reduced by 4dBA.
